

Free Post-Adoption Examination – Participating Veterinarians

Regular veterinary care is important to the long-term well-being of your new pet. The veterinary hospitals below offer a free post-adoption exam within the **first week** following your adoption. Only the examination is free; any medications or additional services are at your expense. You are encouraged to **call and make an appointment** in advance. Please present the dated coupon included in your adoption paperwork to your appointment. **You will not** receive a free exam unless you bring the coupon with you.
